Independent Auditors' Report

To the Board of Directors of KAIMEI ELECTRONIC CORP. :

Opinion

We have audited the financial statements of KAIMEI ELECTRONIC CORP. (“the Company”), which comprise the balance sheets as of December 31, 2025 and 2024, the statements of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the financial statements, including a summary of material accounting policies.

In our opinion, the accompanying parent company only financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2025 and 2024 and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the parent company only financial statements of the current period. These matters were addressed in the context of our audit of the parent company only financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Revenue recognition

Please refer to Note 4(n) and Note 6(p) for accounting policy and detailed disclosure of revenue, respectively.

Description of key audit matter:

KAIMEI ELECTRONIC CORP. and its subsidiaries accounted for using equity method are engaged in the manufacturing and sale of capacitors and fans. Revenue generated by the Company and its equity-method investees represents one of the significant items in the Company's separate financial statements. The amount and fluctuations of revenue may affect the users' understanding of the financial statements as a whole. Accordingly, the testing of revenue recognition is one of the key audit matters in our audit of the Company's separate financial statements.

How the matter was addressed in our audit:

Our audit procedures relating to the above key audit matter mainly included obtaining an understanding of the revenue types, contract terms, and transaction conditions, evaluating whether the timing of revenue recognition was appropriate, examining the major sales contracts of Kaimei Electric Co., Ltd. and its equity-method investees, testing the design and implementation of internal controls over shipment and revenue recognition processes, selecting samples of shipments made by Kaimei Electric Co., Ltd. and its equity-method investees before and after the balance sheet date for inspection, and reviewing supporting documentation such as delivery evidence and invoices to determine whether the related sales revenues were recognized in the appropriate reporting period.

Responsibilities of Management and Those Charged with Governance for the Parent Company Only Financial Statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with Regulations Governing the Preparation of Financial Reports by Securities Issuers and for such internal control as management determines is necessary to enable the preparation of the parent company only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including the Audit Committee) are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Parent Company Only Financial Statements

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company only financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the disclosures, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient and appropriate audit evidence regarding the financial information of the investment in other entities accounted for using the equity method to express an opinion on these parent company only financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent company only financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Wang, I-Wen and Huang, Keng-Chia.

KPMG

Taipei, Taiwan (Republic of China)
March 6, 2026

Notes to Readers

The accompanying parent company only financial statements are intended only to present the statement of financial position, financial performance and its cash flows in accordance with the accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such parent company only financial statements are those generally accepted and applied in the Republic of China.

The auditors' report and the accompanying parent company only financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of the English and Chinese language auditors' report and parent company only financial statements, the Chinese version shall prevail.

KAIMEI ELECTRONIC CORP.

Notes to the Parent Company Only Financial Statements

For the years ended December 31, 2025 and 2024

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

(1) Company history

KAIMEI ELECTRONIC CORP. (the “Company”), formerly known as TEAPO ELECTRONIC LTD. was established on September 11, 1978, by the approval of Ministry of Economic Affairs under the Company Law, the main business line is manufacture and sale of capacitors, please refer to Note 6(o). The Company's ordinary shares were publicly listed on the Taiwan Stock Exchange on August 29, 1998.

Merging with G-Luxon Electronics Corp. on October 31, 2005 (the reference date of the merger) was approved by the resolution of the shareholders' meeting, and the Company was the surviving company. In 2019, the shareholders' meeting resolved to approve the Company merged with the former KAIMEI ELECTRONIC CORP. on September 30, 2019 (the reference date of the merger), and the Company was the surviving company. On October 28, 2019, the Company was renamed as KAIMEI ELECTRONIC CORP. subsequently, by the approval of Ministry of Economic Affairs.

(2) Approval date and procedures of the financial statements:

These parent company only financial statements were authorized for issuance by the Board of Directors on March 6, 2026.

(3) New standards, amendments and interpretations adopted:

- (a) The impact of the IFRS Accounting Standards endorsed by the Financial Supervisory Commission, R.O.C. which have already been adopted.

The Company has initially adopted the following new amendments, which do not have a significant impact on its financial statements, from January 1, 2025:

- Amendments to IAS21 “Lack of Exchangeability”

- (b) The impact of IFRS Accounting Standards endorsed by the FSC but not yet effective

The Company assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2026, would not have a significant impact on its financial statements:

- IFRS 17 “Insurance Contracts” and amendments to IFRS 17 “Insurance Contracts”
- Amendments to IFRS 9 and IFRS 7 “Amendments to the Classification and Measurement of Financial Instruments”
- Annual Improvements to IFRS Accounting Standards—Volume 11
- Amendments to IFRS 9 and IFRS 7 “Contracts Referencing Nature-dependent Electricity”

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

- (c) The impact of IFRS Accounting Standards issued by IASB but not yet endorsed by the FSC

The following new and amended standards, which may be relevant to the Company, have been issued by the International Accounting Standards Board (IASB), but have yet to be endorsed by the FSC:

Standards or Interpretations	Content of amendment	Effective date per IASB
IFRS 18 "Presentation and Disclosure in Financial Statements"	The new standard introduces three categories of income and expenses, two income statement subtotals and one single note on management performance measures. The three amendments, combined with enhanced guidance on how to disaggregate information, set the stage for better and more consistent information for users, and will affect all the entities. • A more structured income statement: under current standards, companies use different formats to present their results, making it difficult for investors to compare financial performance across companies. The new standard promotes a more structured income statement, introducing a newly defined 'operating profit' subtotal and a requirement for all income and expenses to be allocated between three new distinct categories based on a company's main business activities. • Management performance measures (MPMs): the new standard introduces a definition for management performance measures, and requires companies to explain in a single note to the financial statements why the measure provides useful information, how it is calculated and reconcile it to an amount determined under IFRS Accounting Standards. • Greater disaggregation of information: the new standard includes enhanced guidance on how companies group information in the financial statements. This includes guidance on whether information is included in the primary financial statements or is further disaggregated in the notes.	January 1, 2027 note: On September 25, 2025, the FSC issued a press release announcing that Taiwan will adopt IFRS 18 beginning in 2028. Entities that need to adopt the new standard earlier may do with the endorsement of the FSC.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

The Company is evaluating the impact on its financial position and financial performance upon the initial adoption of the abovementioned standards or interpretations. The results thereof will be disclosed when the Company completes its evaluation.

The Company does not expect the following other new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its financial statements:

- Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture”
- IFRS 19 “Subsidiaries without Public Accountability: Disclosures” and amendments to IFRS 19 “Subsidiaries without Public Accountability: Disclosures”
- Amendments to IAS 21 “Translation to a Hyperinflationary Presentation Currency”

(4) Summary of material accounting policies:

The material accounting policies presented in the parent company only financial statements are summarized below. The following accounting policies were applied consistently throughout the periods presented in the parent company only financial statements.

(a) Statement of compliance

These parent company only financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (hereinafter referred to as “the Regulations”).

(b) Basis of preparation

(i) Basis of measurement

Except for the following significant accounts, the parent company only financial statements have been prepared on a historical cost basis.

- 1) Financial assets at fair value through profit or loss are measured at fair value;
- 2) Financial assets at fair value through other comprehensive income are measured at fair value;
- 3) The defined benefit liabilities (assets) are measured at fair value of the plan assets less the present value of the defined benefit obligation.

(ii) Functional and presentation currency

The functional currency of the Company is determined based on the primary economic environment in which the Company operates. The parent company only financial statements are presented in New Taiwan Dollar (NTD), which is the Company's functional currency. All financial information presented in NTD has been rounded to the nearest thousand.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

(c) Foreign currencies

(i) Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of Company entities at the exchange rates at the dates of the transactions. At the end of each subsequent reporting period, monetary items denominated in foreign currencies are translated into the functional currencies using the exchange rate at that date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated into the functional currencies using the exchange rate at the date that the fair value was determined. Non-monetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of the transaction.

Exchange differences are generally recognized in profit or loss, except for those differences relating to the following, which are recognized in other comprehensive income.

- 1) an investment in equity securities designated as at fair value through other comprehensive income;
- 2) a financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective; or
- 3) qualifying cash flow hedges to the extent that the hedges are effective.

(ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into the presentation currency at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into the presentation currency at the average exchange rate. Exchange differences are recognized in other comprehensive income.

When a foreign operation is disposed of such that control, significant influence, or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When the Company disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non-controlling interests. When the Company disposes of only part of its investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

When the settlement of a monetary receivable from or payable to a foreign operation is neither planned nor likely to occur in the foreseeable future, exchange differences arising from such a monetary item that are considered to form part of the net investment in the foreign operation are recognized in other comprehensive income.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

(d) Classification of current and non-current assets and liabilities

The Company classifies the asset as current under one of the following criteria, and all other assets are classified as non current.

- (i) It expects to realize the asset, or intends to sell or consume it, in its normal operating cycle;
- (ii) It holds the asset primarily for the purpose of trading;
- (iii) It expects to realize the asset within twelve months after the reporting period; or
- (iv) The asset is cash or a cash equivalent (as defined in IAS 7) unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

The Company classifies the liability as current under one of the following criteria, and all other liabilities are classified as non current.

- (i) It expects to settle the liability in its normal operating cycle;
- (ii) It holds the liability primarily for the purpose of trading
- (iii) The liability is due to be settled within twelve months after the reporting period; or
- (iv) It does not have the right at the end of the reporting period to defer settlement of the liability for at least twelve months after the reporting period.

(e) Cash and cash equivalents

Cash comprises cash on hand and demand deposits. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Time deposits which meet the above definition and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes should be recognized as cash equivalents.

(f) Financial instruments

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

(i) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

On initial recognition, a financial asset is classified as measured at: amortized cost; Fair value through other comprehensive income (FVOCI) – debt investment; FVOCI – equity investment; or FVTPL. Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

1) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost, which is the amount at which the financial asset is measured at initial recognition, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as impairment, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

2) Fair value through other comprehensive income (FVOCI)

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an instrument-by-instrument basis.

Debt investments at FVOCI are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in other comprehensive income. On derecognition, gains and losses accumulated in other comprehensive income are reclassified to profit or loss.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

Equity investments at FVOCI are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income and are never reclassified to profit or loss.

Dividend income derived from equity investments is recognized on the date that the Company's right to receive payment is established, which in the case of quoted securities is normally the exdividend date.

3) Fair value through profit or loss (FVTPL)

All financial assets not classified as amortized cost or FVOCI described as above are measured at FVTPL, including derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

4) Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realizing cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated — e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, and are consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

5) Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, "principal" is defined as the fair value of the financial assets on initial recognition. "Interest" is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features)

6) Impairment of financial assets

The Company recognizes loss allowances for expected credit losses (ECL) on financial assets measured at amortized cost (including cash and cash equivalents, amortized costs, notes and trade receivables, other receivable, guarantee deposit paid and other financial assets).

The Company measures loss allowances at an amount equal to lifetime expected credit loss (ECL), except for the following which are measured as 12-month ECL:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowance for trade receivables and contract assets are always measured at an amount equal to lifetime ECL.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Company's historical experience and informed credit assessment as well as forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

(Continued)

KAIMEI ELECTRONIC CORP.

Notes to the Parent Company Only Financial Statements

The Company considers a financial asset to be in default when the financial asset is more than 180 days past due or the debtor is unlikely to pay its credit obligations to the Company in full.

The Company considers a debt security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of ‘investment grade which is considered to be BBB- or higher per Standard & Poor’s, Baa3 or higher per Moody’s or twA or higher per Taiwan Ratings’.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

At each reporting date, the Company assesses whether financial assets carried at amortized cost are credit-impaired. A financial asset is ‘credit-impaired’ when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 180 days past due;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;
- it is probable that the borrower will enter bankruptcy or other financial reorganization;
or
- the disappearance of an active market for a security because of financial difficulties.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

(Continued)

KAIMEI ELECTRONIC CORP.

Notes to the Parent Company Only Financial Statements

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For corporate customers, the Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

7) Derecognition of financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Company enters into transactions whereby it transfers assets recognized in its statement of balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

(ii) Financial liabilities and equity instruments

1) Classification of debt or equity

Debt and equity instruments issued by the Company are classified as financial liabilities or equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2) Equity instrument

An equity instrument is any contract that evidences residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued are recognized as the amount of consideration received, less the direct cost of issuing.

3) Treasury shares

When shares recognized as equity are repurchased, the amount of the consideration paid, which includes directly attributable costs, is recognized as a deduction from equity. Repurchased shares are classified as treasury shares. When treasury shares are sold or reissued subsequently, the amount received is recognized as an increase in equity, and the resulting surplus or deficit on the transaction is recognized in capital surplus or retained earnings (if the capital surplus is not sufficient to be written down).

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

4) Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

5) Derecognition of financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount of a financial liability extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

6) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount presented in the statement of balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

(g) Inventories

Inventories are measured at the lower of cost and net realizable value. The cost of inventories is calculated using the weighted average method, and includes expenditure incurred in acquiring the inventories, production or conversion costs, and other costs incurred in bringing them to their present location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

(h) Investment in associates

Associates are those entities in which the Company has significant influence, but not control or joint control, over their financial and operating policies.

Investments in associates are accounted for using the equity method and are recognized initially at cost. The cost of the investment includes transaction costs. The carrying amount of the investment in associates includes goodwill arising from the acquisition less any accumulated impairment losses.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

The parent company only financial statements include the Company's share of the profit or loss and other comprehensive income of those associates, after adjustments to align their accounting policies with those of the Company, from the date on which significant influence commences until the date on which significant influence ceases. The Company recognizes any changes of its proportionate share in the investee within capital surplus, when an associate's equity changes due to reasons other than profit and loss or comprehensive income, which did not result in changes in actual significant influence.

Gains and losses resulting from transactions between the Company and an associate are recognized only to the extent of unrelated Company's interests in the associate.

When the Company's share of losses of an associate equals or exceeds its interests in an associate, it discontinues recognizing its share of further losses. After the recognized interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Company has incurred legal or constructive obligations or made payments on behalf of the associate.

When the Company subscribes to additional shares in an associate at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment will differ from the amount of the Company's proportionate interest in the net assets of the associate. The Company records such a difference as an adjustment to investments, with the corresponding amount charged or credited to capital surplus. The aforesaid adjustment should first be adjusted under capital surplus. If the capital surplus resulting from changes in ownership interest is not sufficient, the remaining difference is debited to retained earnings. If the Company's ownership interest is reduced due to the additional subscription to the shares of the associate by other investors, the proportionate amount of the gains or losses previously recognized in other comprehensive income in relation to that associate will be reclassified to profit or loss on the same basis as would be required if the associate had directly disposed of the related assets or liabilities.

(i) Investment in subsidiaries

When preparing the parent company only financial statements, investment in subsidiaries which are controlled by the Company is accounted for using the equity method. Under the equity method, the net income, other comprehensive income and equity attributable to shareholders of the Company in the parent company only financial statements, are equal to those in the consolidated financial statements.

Changes in the Company's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

(j) Property, plant and equipment

(i) Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

(ii) Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

(iii) Depreciation

Depreciation is calculated on the cost of an asset less its residual value and is recognized in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment.

Land is not depreciated.

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

1) Buildings and construction	5~55 years
2) Machinery and equipment	2~10 years
3) Office and other facilities	1~9 years

Buildings and construction constitute mainly building, mechanical and electrical power equipment and its related facilities. Each such part depreciates based on its useful life.

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(k) Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

(i) As a lessee

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments; including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

- there is a change in future lease payments arising from the change in an index or rate; or
- there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee; or
- there is a change in the lease term resulting from a change of its assessment on whether it will exercise an option to purchase the underlying asset; or
- there is a change in the lease term resulting from a change of the Company's assessment on whether it will exercise an extension or termination option; or
- there is any lease modifications.

When the lease liability is remeasured, other than lease modifications, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Company accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

The Company presents right-of-use assets that do not meet the definition of investment and lease liabilities as a separate line item respectively in the statement of financial position.

The Company has elected not to recognize right-of-use assets and lease liabilities for short-term leases of photocopying equipment that have a lease term of 12 months or less. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

(ii) As a lessor

When the Company acts as a lessor, it determines at lease commencement whether each lease is a finance lease or an operating lease. To classify each lease, the Company makes an overall assessment of whether the lease transfers to the lessee substantially all of the risks and rewards of ownership incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then the lease is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, the Company applies IFRS 15 to allocate the consideration in the contract.

(l) Intangible assets

(i) Recognition and measurement

Goodwill arising on the acquisition of subsidiaries is measured at cost, less accumulated impairment losses.

Expenditure on research activities is recognized in profit or loss as incurred.

Development expenditure is capitalized only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Company intends to, and has sufficient resources to, complete development and to use or sell the asset. Otherwise, it is recognized in profit or loss as incurred. Subsequent to initial recognition, development expenditure is measured at cost, less accumulated amortization and any accumulated impairment losses.

Other intangible assets, including patents and trademarks, that are acquired by the Company and have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses.

(ii) Subsequent expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in profit or loss as incurred.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

(iii) Amortization

Amortization is calculated over the cost of the asset, less its residual value, and is recognized in profit or loss on a straight-line basis over the estimated useful lives of intangible assets, other than goodwill, from the date that they are available for use.

The estimated useful lives for current and comparative periods are as follows:

- | | |
|---------------------------------------|------------|
| 1) Computer software | 1~3 years |
| 2) Patent and other intangible assets | 3~10 years |

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(m) Impairment of non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets (other than inventories and deferred tax asset) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs. Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

(n) Revenue from contracts with customers

Revenue is measured based on the consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer. The Company recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Company's main types of revenue are explained below.

(i) Sale of goods

The Company manufactures and sells capacitor. The Company recognizes revenue when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Company has objective evidence that all criteria for acceptance have been satisfied.

A receivable is recognized when the goods are delivered as this is the point in time that the Company has a right to an amount of consideration that is unconditional.

(ii) Financing components

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

(o) Employee benefits

(i) Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided.

(ii) Defined benefit plans

The Company's net obligation in respect of defined benefit plans is calculated separately for each the plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income, and accumulated in retained earnings within equity. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

(iii) Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(p) Income taxes

Income taxes comprise current taxes and deferred taxes. Except for expenses related to business combinations or recognized directly in equity or other comprehensive income, all current and deferred taxes are recognized in profit or loss.

The Company has determined that interest and penalties related to income taxes, including uncertain tax treatment, do not meet the definition of income taxes, and therefore accounted for them under IAS 37.

The Group has determined that the global minimum top-up tax – which it is required to pay under Pillar Two legislation – is an income tax in the scope of IAS 12. The Group has applied a temporary mandatory relief from deferred tax accounting for the impacts of the top-up tax and accounts for it as a current tax when it is incurred.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

Deferred taxes arise due to temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases. Deferred taxes are recognized except for the following:

- (i) temporary differences on the initial recognition of assets and liabilities in a transaction that is not a business combination and at the time of the transactions affects neither accounting nor taxable profit (losses) and does not give rise to equal taxable and deductible temporary differences;
- (ii) temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- (iii) taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for the carry forward of unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realized.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting.

Deferred tax assets and liabilities are offset if the following criteria are met:

- (i) the Company has a legally enforceable right to set off current tax assets against current tax liabilities; and
- (ii) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:
 - 1) the same taxable entity; or
 - 2) different taxable entities which intend to settle current tax assets and liabilities on a net basis, or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.
- (q) Business combination

Except for business combinations under common control, the Company accounts for business combinations using the acquisition method. The goodwill arising from an acquisition is measured as the excess of (i) the consideration transferred (which is generally measured at fair value) and (ii) the amount of non-controlling interest in the acquiree, both over the identifiable net assets acquired at the acquisition date. If the amount calculated above is a deficit balance, the Company recognized that amount as a gain on a bargain purchase in profit or loss immediately after reassessing whether it has correctly identified all of the assets acquired and all of the liabilities assumed.

All acquisition-related transaction costs are expensed as incurred, except for the issuance of debt or equity instruments.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

For each business combination, the Company measures any noncontrolling interests in the acquiree either at fair value or at the noncontrolling interest's proportionate share of the acquiree's identifiable net assets, if the noncontrolling interests are present ownership interests and entitle their holders to a proportionate share of the Company's net assets in the event of liquidation. Other components of noncontrolling interests are measured at their acquisition-date fair values, unless another measurement basis is required by the IFRSs endorsed by the FSC.

The Company did not use the acquisition method to deal with the business combination under the organizational restructuring, but adopted the book value method and regarded as a combination from the beginning.

The Company disposed of subsidiaries is an organizational restructuring within the Company due to economic substance. The subsidiary is regarded as a derecognition from the beginning. In preparing the balance sheet and statements of changes in equity, the equity from acquisition record as "Equity attributable to the subsequent owner of business combination under common control"; In preparing the statements of comprehensive income, the profit or loss belong to former controlling shareholders record as "profit or loss, attributable to the subsequent owner of business combination under common control".

The Company acquired subsidiaries is an organizational restructuring within the Company due to economic substance, which recognized the carrying amounts of subsidiary originally held by the seller. The subsidiary is regarded as a combination from the beginning. In preparing the balance sheet and statements of changes in equity, the equity from acquisition record as "Equity attributable to former owner of business combination under common control"; In preparing the statements of comprehensive income, the profit or loss belong to former controlling shareholders record as "profit or loss, attributable to former owner of business combination under common control".

(r) Earnings per share

The Company discloses the Company's basic and diluted earnings per share attributable to ordinary shareholders of the Company. Basic earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding. Diluted earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding after adjustment for the effects of all potentially dilutive ordinary shares.

(s) Operating segments

The Company discloses the operating segments information in the consolidated financial statements. Therefore, the Company does not disclose the operating segments information in the parent company only financial statements.

(5) Significant accounting assumptions and judgments, and major sources of estimation uncertainty:

In preparing these parent company only financial statements, management has made judgments and estimates about the future, including climate-related risks and opportunities, that affect the application of the accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

Estimates and underlying assumptions are reviewed on an ongoing basis and are consistent with the Company's risk management and climate-related commitments where appropriate. Revisions to estimates are recognized prospectively in the period of the change and future periods.

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognized in the parent company only financial statements is as follows:

(a) Judgment of whether the Company has substantive control over its investees

The Company was the largest shareholder of some of the investee companies during a specific period and obtained a directorship of the investee companies in May 2023. However, the Company has no control and significant influence over the abovementioned investee companies as the Company could not affect the relevant activities of the investee companies.

(b) Judgment regarding significant influence of investees

Prior to May 2014, the Company held less than 20% of the voting rights of Tong Hsing Electronic Industries, Ltd. Although Tong Hsing Electronic Industries, Ltd. had nine board seats in total, the Company and its subsidiaries together held two seats. Accordingly, the Company concluded that it had significant influence and accounted for the investment using the equity method. After Tong Hsing Electronic Industries, Ltd. elected new directors in May 2014, the Company continued to hold less than 20% of its voting rights. Nevertheless, the Company remained the single largest shareholder of Tong Hsing Electronic Industries, Ltd., and the representative of the Company serving as one of Tong Hsing's directors was also part of the Company's management and served concurrently as the Company's chairperson. Therefore, the Company concluded that it continued to have significant influence and applied the equity method.

There are no critical judgments in applying the accounting policies that have significant effects on the amounts recognized in the financial statements.

(6) Explanation of significant accounts:

(a) Cash and cash equivalents

	December 31, 2025	December 31, 2024
Cash on hand and petty cash	\$ 1,597	2,388
Check and demand deposits	245,796	147,191
Time deposits	78,575	-
	<u>\$ 325,968</u>	<u>149,579</u>

As of December 31, 2025, the above mentioned time deposits bore an annual interest rate of 4.00%.

Please refer to note 6(r) for the exchange rate risk, interest rate risk, and sensitivity analysis of the financial assets and liabilities of the Company.

(b) Financial assets and liabilities at fair value through profit or loss

	<u>December 31, 2025</u>	<u>December 31, 2024</u>
Financial mandatory assets measured at fair value through profit or loss:		
Derivative instruments not used for hedging:		
Forward exchange contracts	\$ <u>2,157</u>	<u>-</u>
Held-for-trading financial liabilities:		
Derivative instruments not used for hedging:		
Forward exchange contracts	\$ <u>-</u>	<u>2,012</u>

Derivative financial instruments are used to hedge certain foreign exchange risk in which the Company is exposed to arising from its operating, financing and investing activities. The following derivative instruments not applied hedge accounting were classified as mandatorily measured at fair value through profit or loss:

<u>December 31, 2025</u>			
	<u>Amount (in thousands)</u>	<u>Currency</u>	<u>Maturity Date</u>
Forward exchange contracts:			
Forward exchange contracts sold	USD12,000 / CNY84,339	USD/CNY	2026.1
<u>December 31, 2024</u>			
	<u>Amount (in thousands)</u>	<u>Currency</u>	<u>Maturity Date</u>
Forward exchange contracts:			
Forward exchange contracts sold	USD24,000 / CNY175,263	USD/CNY	2025.1

The market risk related to the financial instruments please refer to note 6(r).

As of December 31, 2025 and 2024, the Company did not provide any aforementioned financial assets as collaterals.

(c) Financial assets at fair value through other comprehensive income

	<u>December 31, 2025</u>	<u>December 31, 2024</u>
Equity investments at fair value through other comprehensive income		
-Current		
Domestic listed common shares		
Taiwan Chinsan Electronic Industrial Co., Ltd.	\$ <u>-</u>	<u>954,171</u>
-Non-current		
Domestic listed common shares		
Mao Da Electronics Co., Ltd.	\$ <u>204,768</u>	<u>-</u>

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

- (i) The Company designated the investments shown above as equity securities at fair value through other comprehensive income because these equity securities represent those investments that the Company intends to hold not for the purpose of trading.
- (ii) In 2025 and 2024, the Company disposed of its shareholdings in Taiwan Kaohsiung Shan Electronics Industry Co., Ltd. The fair values at the dates of disposal were NT\$933,809 thousand and NT\$7,160 thousand, respectively, and the cumulative disposal gains amounted to NT\$86,040 thousand and NT\$1,288 thousand, respectively. Prior to the disposal, the cumulative gains previously recognized in other equity were reclassified to retained earnings.
- (iii) Please refer to note 6(r) for credit risk and price risk.
- (iv) As of December 31, 2025 and 2024, none of the Company's financial assets measured at fair value through other comprehensive income had been pledged as collateral or otherwise provided as security.
- (d) Financial assets measured at amortized cost

	December 31, 2025	December 31, 2024
<u>Current</u>		
Time deposits with original maturity of more than three months	\$ <u><u>410,017</u></u>	<u><u>171,335</u></u>
<u>Non-current</u>		
Foreign corporate bonds and interest	\$ <u><u>-</u></u>	<u><u>493,838</u></u>

- (i) The Company is classified as a financial asset measured at amortized cost because it holds the maturity date of such assets to receive contractual cash flows, and the cash flows of such financial assets are entirely interest on the principal amount paid and the amount of the outstanding principal amount paid.
- (ii) The Company held financial asset with the interest rates of 4.01%~4.15% and 2.63%~7.34% as of December 31, 2025 and 2024, respectively.
- (iii) For further credit risk information, please refers to note 6(s).
- (iv) As of December 31, 2025 and 2024, none of the Company's financial assets measured at amortized cost had been pledged as collateral or otherwise provided as security.
- (e) Notes and trade receivables (including related parties)

	December 31, 2025	December 31, 2024
Notes receivable from operating activities	\$ 332	1,286
Trade receivables—measured as amortized cost	<u>192,088</u>	<u>191,650</u>
	192,420	192,936
Less: loss allowance	<u>(1,454)</u>	<u>(1,705)</u>
	<u><u>\$ 190,966</u></u>	<u><u>191,231</u></u>

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

	December 31, 2025	December 31, 2024
Notes receivable, net	\$ 328	1,270
Trade receivables, net	183,459	180,000
Trade receivables due from related parties, net	7,179	9,961
	\$ 190,966	191,231

- (i) The Company applies the simplified approach to provide for its expected credit losses, i.e. the use of lifetime expected loss provision for all receivables. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due, as well as the incorporated forward-looking information, including macroeconomic and relevant industry information. The loss allowance provisions were determined as follows:

	December 31, 2025		
	Gross carrying amount (including related parties)	Weighted average expected credit loss rate	Loss allowance provision
Current	\$ 189,784	0.01%	3
1~30 days past due	1,134	0.00%	-
31~180 days past due	74	31.08%	23
More than 181 days past due	1,428	100.00%	1,428
	\$ 192,420		1,454

	December 31, 2024		
	Gross carrying amount (including related parties)	Weighted average expected credit loss rate	Loss allowance provision
Current	\$ 189,570	0.01%	16
1~30 days past due	1,069	0.00%	-
31~180 days past due	869	30.03%	261
More than 181 days past due	1,428	100.00%	1,428
	\$ 192,936		1,705

- (ii) The movement in the allowance for notes and trade receivables was as follows:

	2025	2024
Balance at January 1	\$ 1,705	1,708
Reversal of impairment loss	(251)	(3)
Balance at December 31	\$ 1,454	1,705

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

- (iii) As of December 31, 2025 and 2024, the Company did not provide any aforementioned notes and trade receivable as collaterals.

(f) Inventories

- (i) The details of inventories were as follows:

	December 31, 2025	December 31, 2024
Finished goods and merchandise	\$ 5,459	3,809
Goods in transit	2,450	3,154
	<u>\$ 7,909</u>	<u>6,963</u>

- (ii) For the years ended December 31, 2025 and 2024, the cost of goods sold amounted to \$687,106 and \$712,949, respectively.
- (iii) The write-down of inventories to net realizable value for the year ended December 31, 2025 amounted to \$45. The factor leading to the net realizable value of inventories being lower than the cost had vanished due to the sale or scrap of obsolete inventories for the year ended December 31, 2024. Therefore, the decrease in recognized operating costs due to the reversal of allowance for loss amounted to \$187.
- (iv) As of December 31, 2025 and 2024, the Company did not provide any inventories as collaterals.

(g) Investments accounted for using equity method

A summary of the Company's financial information for investments accounted for using the equity method at the reporting date is as follows:

	December 31, 2025	December 31, 2024
Subsidiaries	\$ 8,046,398	7,859,712
Associates	1,715,150	1,672,038
	<u>\$ 9,761,548</u>	<u>9,531,750</u>

- (i) Subsidiaries

Please refer to the consolidated financial statements for the year ended December 31, 2025.

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

(i) Short term borrowings

	December 31, 2025	December 31, 2024
Unsecured bank loans	\$ -	625,000
Secured bank loans	-	320,000
Total	<u>\$ -</u>	<u>945,000</u>
Unused short-term credit lines	<u>\$ 5,250,000</u>	<u>6,805,000</u>
Range of interest rates	<u>0</u>	<u>1.98~2.025%</u>

(j) Other payables

The details of other payables were as follows:

	December 31, 2025	December 31, 2024
Payables for remuneration due to employee, directors and supervisors	\$ 76,171	81,755
Payables for wages and bonus	24,073	22,791
Service fee payable and others	<u>21,363</u>	<u>20,416</u>
	<u>\$ 121,607</u>	<u>124,962</u>

(k) Employee benefits

(i) Defined benefit plans

Reconciliation of defined benefit obligation at present value and plan asset at fair value are as follows:

	December 31, 2025	December 31, 2024
Present value of the defined benefit obligations	\$ 12,122	11,501
Fair value of plan assets	<u>(16,064)</u>	<u>(14,354)</u>
Net defined benefit liabilities (assets)	<u>\$ (3,942)</u>	<u>(2,853)</u>

The Company makes defined benefit plan contributions to the pension fund account with Bank of Taiwan that provides pensions for employees upon retirement. Plans (covered by the Labor Standards Law) entitle a retired employee to receive retirement benefits based on years of service and average monthly salary for the six months prior to retirement.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

1) Composition of plan assets

The Company allocates pension funds in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund, and such funds are managed by the Bureau of Labor Funds, Ministry of Labor. With regard to the utilization of the funds, minimum earnings shall be no less than the earnings attainable from two-year time deposits with interest rates offered by local banks.

The Company's Bank of Taiwan labor pension reserve account balance amounted to \$16,064 as of December 31, 2025. For information on the utilization of the labor pension fund assets, including the asset allocation and yield of the fund, please refer to the website of the Bureau of Labor Funds, Ministry of Labor.

2) Movements in present value of the defined benefit obligation

The movement in present value of the defined benefit obligations for the Company were as follows:

	2025	2024
Defined benefit obligations at January 1	\$ 11,501	11,364
Current service costs and interest costs	184	136
Remeasurement loss (gain)	437	1
Defined benefit obligation at December 31	<u><u>\$ 12,122</u></u>	<u><u>11,501</u></u>

3) Movements in fair value of defined benefit plan assets

The movement in fair value of defined benefit plan assets for the Company were as follows:

	2025	2024
Fair value of plan assets at January 1	\$ (14,354)	(12,622)
Expected return on plan assets	(230)	(151)
Remeasurements gain	(969)	(1,092)
Contribution paid by the employer	(511)	(489)
Fair value of plan assets at December 31	<u><u>\$ (16,064)</u></u>	<u><u>(14,354)</u></u>

4) Expenses recognized in profit or loss

The expenses recognized in profit or loss for the Company were as follows:

	2025	2024
Net interest of net liabilities for defined benefit obligations	\$ <u><u>(46)</u></u>	<u><u>(15)</u></u>
Operating expenses	<u><u>\$ (46)</u></u>	<u><u>(15)</u></u>

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

- 5) Remeasurement values of net defined benefit liabilities recognized in other comprehensive income

The remeasurements in net defined benefit liabilities recognized in other comprehensive income were as follows:

	<u>2025</u>	<u>2024</u>
Cumulative amount at January 1	\$ (6,025)	(4,934)
Recognized in current period	(532)	(1,091)
Cumulative amount at December 31	<u>\$ (6,557)</u>	<u>(6,025)</u>

- 6) Actuarial assumptions

The principal actuarial assumptions at the reporting date were as follows:

	<u>December 31, 2025</u>	<u>December 31, 2024</u>
Discount rate	1.30 %	1.60 %
Expected return on plan assets	2.00 %	1.20 %

The expected allocation payment to be made by the Company to the defined benefit plans for the one-year period after the reporting date is \$516.

The weighted average lifetime of the defined benefits plans is 7 years.

- 7) Sensitivity analysis

If the actuarial assumptions had changed, the impact on the present value of the defined benefit obligation shall be as follows:

	<u>Influences of defined benefit obligations</u>	
	<u>Increase 0.25%</u>	<u>Decrease 0.25%</u>
December 31, 2025		
Discount rate	(182)	188
Future salary increase rate	161	(157)
December 31, 2024		
Discount rate	(188)	194
Future salary increase rate	165	(160)

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown above. The method used in the sensitivity analysis is consistent with the calculation of pension liabilities in the balance sheets.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

There is no change in the method and assumptions used in the preparation of sensitivity analysis for 2025 and 2024.

(ii) Defined contribution plans

The Company allocates 6% of each employee's monthly wages to the labor pension personal account at the Bureau of Labor Insurance in accordance with the provisions of the Labor Pension Act. Under these defined contribution plans, the Company allocates a fixed amount to the Bureau of Labor Insurance without additional legal or constructive obligation.

The pension costs incurred from the contributions to the Bureau of the Labor Insurance amounted to \$2,619 and \$2,604 for the years ended December 31, 2025 and 2024, respectively.

(l) Income taxes

(i) The components of income tax in the years 2025 and 2024 were as follows:

	<u>2025</u>	<u>2024</u>
Current tax expense		
Current period	\$ 69,718	35,132
Adjustment for prior periods	<u>-</u>	<u>186</u>
	<u>69,718</u>	<u>35,318</u>
Deferred tax expense		
Origination and reversal of temporary differences	<u>29,282</u>	<u>57,704</u>
Income tax expenses	<u><u>\$ 99,000</u></u>	<u><u>93,022</u></u>

(ii) The amount of income tax recognized in other comprehensive income for 2025 and 2024 were as follows:

	<u>2025</u>	<u>2024</u>
Items that will not be reclassified subsequently to profit or loss:		
Remeasurement from defined benefit plans	\$ 105	218
Unrealized gains (losses) on equity instruments at fair value through other comprehensive income	<u>(6,312)</u>	<u>6,312</u>
	<u><u>\$ (6,207)</u></u>	<u><u>6,530</u></u>
Items that may be reclassified to profit or loss:		
Exchange differences on translation of foreign financial statements	<u><u>\$ 4,177</u></u>	<u><u>19,823</u></u>

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

(iii) Reconciliation of income tax and profit before tax for 2025 and 2024 were as follows:

	2025	2024
Profit before income tax	\$ <u>504,258</u>	<u>587,729</u>
Income tax using the Company's tax rate	100,852	117,546
Estimated tax effect of tax exemption on investment income, net	(31,342)	(34,577)
Change in unrecognized temporary differences	14	46
Additional tax on undistributed earnings	29,476	9,821
Understatement (overstatement) in prior periods	<u>-</u>	<u>186</u>
	<u>\$ 99,000</u>	<u>93,022</u>

(iv) Deferred tax assets and liabilities

1) Unrecognized deferred tax liabilities

The Company is able to control the timing of the reversal of the temporary differences associated with investments in subsidiaries as of December 31, 2025 and 2024. Also, management considers it probable that the temporary differences will not reverse in the foreseeable future. Hence, such temporary differences are not recognized under deferred tax liabilities. Details are as follows:

	December 31, 2025	December 31, 2024
Aggregate amount of temporary differences related to investments in subsidiaries	\$ <u>321,597</u>	<u>321,597</u>
Unrecognized deferred tax liabilities	<u>\$ 64,319</u>	<u>64,319</u>

2) Unrecognized deferred tax assets

Deferred tax assets have not been recognized in respect of the following items:

	December 31, 2025	December 31, 2024
Tax effect of deductible temporary differences	\$ <u>2,253</u>	<u>2,239</u>

The Company assesses and considers that some of the income tax reduction items may be unrealized, hence they are not recognized as deferred tax assets.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

3) Recognized deferred tax assets and liabilities

Changes in the amount of deferred tax assets and liabilities for 2025 and 2024 were as follows:

			Defined benefit plan	Others	Total	
Deferred tax assets:						
Balance at January 1, 2025	\$	8,320	5,126	13,446		
Recognized in profit or loss		(111)	(44)	(155)		
Balance at December 31, 2025	\$	<u>8,209</u>	<u>5,082</u>	<u>13,291</u>

Recognized in other comprehensive income	<u>218</u>	<u>-</u>	<u>19,823</u>	<u>6,312</u>	<u>26,353</u>	
Balance at December 31, 2024	\$	<u>881</u>	<u>278,292</u>	<u>21,526</u>	<u>46,861</u>	<u>347,560</u>

(v) The income tax returns of the Company for the years through 2022 were assessed by the tax authorities.

(m) Capital and other equity

(i) Ordinary shares

As of December 31, 2025 and 2024, the Company's authorized share capital amounted to \$5,700,000; divided into 570,000 thousand shares with par value of \$10 per share. As of December 31, 2025 and 2024, the Company has issued both \$108,675 thousand shares, all issued shares were paid up upon issuance.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

(ii) Capital surplus

The balances of capital surplus were as follows:

	December 31, 2025	December 31, 2024
Additional paid-in capital	\$ 4,002,693	4,002,693
Donation from shareholders	423	423
Changes in equity of associates and joint ventures accounted for using equity method	421,904	421,904
Changes in ownership interests in subsidiaries	203,995	203,995
Employee share options	696	696
Treasury share transactions	89,593	89,593
Others	<u>13,627</u>	<u>13,627</u>
	<u>\$ 4,732,931</u>	<u>4,732,931</u>

According to the R.O.C. Company Act, capital surplus can only be used to offset a deficit, and only the realized capital surplus can be used to increase the common stock or be distributed as cash dividends. The aforementioned realized capital surplus includes capital surplus resulting from premium on issuance of capital stock and earnings from donated assets received. According to the Regulations Governing the Offering and Issuance of Securities by Securities Issuers, capital increases by transferring capital surplus in excess of par value should not exceed 10% of the total common stock outstanding.

(iii) Retained earnings

If, after the close of the fiscal year, the Company has current period earnings, such earnings shall first be used to pay taxes and offset prior years' accumulated losses. Any remaining balance shall then be appropriated in the following order and percentages as required by law to set aside legal reserve. However, once the legal reserve has reached the total paid in capital of the Company, this requirement shall not apply. If required by law, a special reserve shall also be set aside. If there is still a remaining balance after such appropriations, the Board of Directors shall prepare an earnings distribution proposal allocating not less than ten percent (10%) of the remaining earnings, unless the Board of Directors deems such distribution inappropriate due to special circumstances and resolves otherwise. The Board of Directors may, when preparing the earnings distribution proposal, consider appropriating a portion of undistributed earnings from prior years for distribution. The earnings distribution proposal shall be submitted to the shareholders' meeting for approval. The distribution of dividends and bonuses may be made in cash or in shares. Cash dividends shall be approved by a resolution of the Board of Directors attended by at least two-thirds of the directors and adopted by a majority of the directors present, and shall be reported to the shareholders' meeting.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

The Company's dividend distribution policy shall take shareholders' interests into consideration, and take into account the company's current and future domestic and international industry competition environment, investment environment, and capital needs, and authorize the board of directors to properly formulate distribution ratios for cash and stock dividends. The board of directors should also draw up a distribution plan and establish a resolution according to legal requirements.

In the absence of a loss, the Company may, by a resolution of the board of directors attended by more than two-thirds of the directors and approved by more than one-half of the directors who attended, distribute a sum of all or part of the statutory surplus reserve and the capital reserve required under Paragraph 1, Article 241 of the Companies Act in cash in proportion to the existing shares of the shareholders and report this at the shareholders' meeting.

The Company may distribute earnings or make up losses after the end of every half of each accounting year. When the Company distributes the earnings for the first half of the fiscal year in accordance with the provisions of the preceding paragraph, it shall first estimate and retain the amount of tax payable, compensation of losses, employee compensation and provision for surplus reserve. However, this restriction does not apply when the legal reserve amounts to the paid-in capital.

Proposals for the distribution of surplus or the appropriation of deficit shall be submitted to the board of directors for approval, after a review of the operating position and cash flow together with the business report and financial statements by the Audit Committee. If the distribution of surplus is to be made by way of new shares, the board of directors shall, in accordance with the provisions of Article 240 of the Companies Act, submit it to the shareholders' meeting for resolution.

1) Legal reserve

When a company incurs no loss, it may, pursuant to a resolution by a shareholders' meeting, distribute its legal reserve by issuing new shares or by distributing cash, and only the portion of legal reserve which exceeds 25% of capital may be distributed.

2) Special reserve

A portion of current-period earnings and undistributed prior-period earnings shall be reclassified as a special earnings reserve during earnings distribution. The amount to be reclassified to special reserve shall be a portion of current-period earnings plus other line items in the retained earnings movements and undistributed prior-period earnings. A portion of undistributed prior-period earnings shall be reclassified as special earnings reserve (and does not qualify for earnings distribution) to account for cumulative changes to other shareholders' equity pertaining to prior periods. Amounts of subsequent reversals pertaining to the net reduction of other shareholders' equity shall qualify for additional distributions. The balance of special reserve amounted to \$21,536 and \$325,870 as of December 31, 2025 and 2024, respectively.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

3) Earnings distribution

Earnings distribution for 2024 and 2023 was decided by the resolution adopted, at the meeting of the Board of Directors held on March 3, 2025 and March 12, 2024, respectively. The relevant dividend distributions to shareholders were as follows:

	2024		2023	
	Amount per share (NTD)	Total amount	Amount per share (NTD)	Total amount
Dividends distributed to ordinary shareholders:				
Cash	\$ 1.5	<u><u>163,013</u></u>	0.8	<u><u>86,940</u></u>

On March 6, 2026, the Company's Board of Directors resolved to appropriate the 2025 earnings. These earnings were appropriated as follows:

	2025	
	Amount per share (NTD)	Total amount
Dividends distributed to ordinary shareholders:		
Cash	\$ 1.2	<u><u>130,410</u></u>

(n) Earnings per share

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

(p) Employee, directors' and supervisors' remuneration

The Company, on May 23, 2025, resolved at the shareholders' meeting to amend the Articles of Incorporation. According to the amended Articles, if the Company has earnings for the year (earnings referring to pre-tax profit before deducting employee compensation and directors' and supervisors' remuneration), the Company shall allocate not less than 0.2% of such earnings as employee compensation and not more than 4% as directors' and supervisors' remuneration. The distribution amount of employee compensation and directors' and supervisors' remuneration shall be proposed by the Board of Directors and reported to the shareholders' meeting. When the Company has accumulated losses, earnings shall first be used to offset such losses before distributing employee compensation and directors' and supervisors' remuneration. Employee compensation may be distributed in the form of shares or cash. The recipients of share-based compensation may include employees of the Company's subsidiaries who meet certain criteria, which shall be resolved by the Board of Directors.

Before the aforementioned amendment, the Company's Articles of Incorporation provided that, if the Company had earnings for the year (earnings referring to pre-tax profit), the Company should allocate not less than 0.2% of such earnings as employee compensation and not more than 4% as directors' and supervisors' remuneration. The distribution amount of employee compensation and directors' and supervisors' remuneration was to be proposed by the Board of Directors and reported to the shareholders' meeting. When the Company had accumulated losses, earnings were required to first offset such losses before distributing employee compensation and directors' and supervisors' remuneration. Employee compensation could be distributed in the form of shares or cash. The recipients of share-based compensation could include employees of the Company's subsidiaries who meet certain criteria, to be resolved by the Board of Directors.

For the fiscal years 2025 and 2024, the estimated amounts of employee compensation were NT\$11,450 thousand (including base-level employee compensation) and NT\$18,182 thousand, respectively, while the estimated amounts of directors' and supervisors' remuneration were NT\$21,456 thousand and NT\$25,246 thousand, respectively. These estimates were calculated based on the Company's profit before tax for the respective periods and the amounts of employee compensation and directors' and supervisors' remuneration proposed by the Company's management as the basis for estimation. The information was reported to the shareholders. However, when the Company had accumulated losses, the employee compensation should first be used to offset such losses before any distribution. Employee compensation may be distributed in cash or in shares, and the distribution to eligible recipients (including those meeting certain criteria and belonging to the Company's employees) shall be subject to the resolution of the Board of Directors.

The Company had operating profits for the fiscal years 2025 and 2024 and the entire amount was distributed in cash. Related information was disclosed on the Market Observation Post System. The employee compensation and directors' and supervisors' remuneration approved by the Board of Directors were consistent with the amounts disclosed in the individual financial statements for the fiscal years 2025 and 2024.

Others	<u>293</u>	<u>1,098</u>
	<u><u>\$ (25,452)</u></u>	<u><u>(15,931)</u></u>

(r) Financial instruments

(i) Credit risk

1) Credit risk exposure

A credit risk is the risk of having financial losses arising from counterparties failing to meet their required contract obligation. As at reporting date, the Company's exposure to credit risk and the maximum exposure were mainly from:

- a) The carrying amount of financial assets and contract assets recognized in the balance sheet; and
- b) The maximum amount that the Company may pay if it provides financial guarantees, regardless of the likelihood of occurrence.

2) Concentration of credit risk

As sales are made to customers worldwide, the Company's exposure to credit risk concentration is expected to be low. The Company continuously assesses the financial condition of its customers. If it is necessary, the Company will ask for guarantees or warranties. The Company still regularly assesses the likelihood of collectability of accounts receivable and sets aside allowance for bad debts, based on the result of management's evaluation of the overall amounts of bad debts.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

3) Credit risk exposure of notes and trade receivables

For information on the credit risk exposure and impairment of notes receivable and accounts receivable, please refer to Note 6(e).

Other financial assets at amortized cost include other receivables and time deposits.

All of these financial assets are considered to be low risk, and thus the impairment provision recognized during the period was limited to 12 months expected losses. (Please refer to Note 4(f) for the Company determines whether credit risk is to be low risk).

(ii) Liquidity risk

The following table shows the contractual maturities of financial liabilities, including estimated interest payments:

	<u>Carrying amount</u>	<u>Contractual cash flows</u>	<u>Within 1 year</u>	<u>1-2 years</u>	<u>Over 2 years</u>

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

(iii) Currency risk

1) Exposure to foreign currency risk

The Company's significant exposure to foreign currency risk were as follows:

	December 31, 2025			December 31, 2024		
	Foreign currency	Exchange rate	NTD	Foreign currency	Exchange rate	NTD
<u>Financial assets</u>						
<u>Monetary items</u>						
USD	\$	26,867 USD/NTD =31.430	844,442	29,056	USD/NTD =32.785	952,600
<u>Financial liabilities</u>						
<u>Monetary items</u>						
USD		21,496 USD/NTD =31.430	675,625	13,229	USD/NTD =32.785	433,700

2) Sensitivity analysis

The Company's exposure to foreign currency risk arises from the translation of the foreign currency exchange gains and losses on cash and cash equivalents, notes and trade receivables (including related parties), other receivables, notes and trade payables (including related parties), other payables and borrowings that are denominated in foreign currency.

A strengthening (weakening) of 5% of the USD against the NTD as of December 31, 2025 and 2024 would have increased (decreased) the net profit before tax as follows. The analysis assumes that all other variables remain constant and ignores any impact of forecasted sales and purchases. The analysis is performed on the same basis for 2025 and 2024.

	December 31, 2025	December 31, 2024
USD(against to NTD)		
Strengthening 5%	\$ 8,441	25,945
Weakening 5%	(8,441)	(25,945)

3) Foreign exchange gain and loss on monetary items

For the years ended December 31, 2025 and 2024, if the exchange profit and loss of the company's monetary items converted into functional currency, foreign exchange gain (including realized and unrealized portions) amounted to \$27,444 and \$34,294, respectively.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

(iv) Interest rate analysis

The Company's exposure to interest rate risk arising from financial assets and liabilities were as follows:

	Book value	
	December 31, 2025	December 31, 2024
Variable rate instruments:		
Financial assets	\$ 245,796	147,191
Financial liabilities	-	-
	\$ 245,796	147,191

Please refer to the notes on liquidity risk management and interest rate exposure of the Company's financial assets and liabilities.

The following sensitivity analysis is based on the exposure to the interest rate risk of derivative and non-derivative financial instruments on the reporting date. Regarding assets with variable interest rates, the analysis is based on the assumption that the amount of assets outstanding at the reporting date was outstanding throughout the year. The rate of change is expressed as the interest rate increases or decreases by 0.25% when reporting to management internally, which also represents the Company management's assessment of the reasonably possible interest rate change.

If the interest rate had increased / decreased by 0.25%, the Company's net income before tax would have increased / decreased by \$614 and \$368 for 2025 and 2024, respectively, with all other variable factors remaining constant. This is mainly due to the Company's borrowing and demand deposits at variable rates.

(v) Other market price risk

If the equity price changes, the impact of equity price change to other comprehensive income will be as follows, assuming the analysis is based on the same basis for both years and assuming that all other variables considered in the analysis remain the same:

	2025		2024	
	Other comprehensive income before tax	Profit or loss before tax	Other comprehensive income before tax	Profit or loss before tax
5% increase	\$ 10,238	-	47,709	-
5% decrease	\$ (10,238)	-	(47,709)	-

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

(vi) Fair value of financial instruments

1) Categories of financial instruments and fair value hierarchy

The fair value of financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income is measured on a recurring basis. The carrying amount and fair value of the Company's financial assets and liabilities, including the information on fair value hierarchy were as follows; however, except as described in the following paragraphs, for financial instruments not measured at fair value whose carrying amount is reasonably close to the fair value, and lease liabilities, disclosure of fair value information is not required.

	December 31, 2025				
	Book value	Fair value			Total
		Level 1	Level 2	Level 3	
Financial assets at fair value through profit or loss					
Derivative financial assets	\$ <u>2,157</u>	-	2,157	-	2,157
Financial assets at fair value through other comprehensive income					
Domestic listed common shares	<u>204,768</u>	204,768	-	-	204,768
Financial assets measured at amortized cost					
Cash and cash equivalents	325,968	-	-	-	-
Notes and trade receivables	190,966	-	-	-	-
Time deposits with original maturity of more than three months	410,017	-	-	-	-
Other receivables	111,531	-	-	-	-
Guarantee deposits paid (classified under other non-current assets)	<u>95</u>	-	-	-	-
	<u>\$ 1,245,502</u>				
Financial liabilities at amortized cost					
Trade payables	\$ 605,772	-	-	-	-
Other payables	180,892	-	-	-	-
Lease liabilities (classified under other current and non-current liabilities)	<u>435</u>	-	-	-	-
	<u>\$ 787,099</u>				

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

	December 31, 2024				
	Book value	Fair value			Total
		Level 1	Level 2	Level 3

	<u>\$ 1,966,307</u>				
Derivative financial liabilities	\$ <u>2,012</u>	-	2,012	-	2,012
Financial liabilities at amortized cost					
Short-term borrowings	945,000	-	-	-	-
Trade payables	365,455	-	-	-	-
Other payables	186,803	-	-	-	-
Lease liabilities (classified under other current liabilities)	<u>798</u>	-	-	-	-
	<u>\$ 1,500,068</u>				

2) Valuation techniques for financial instruments not measured at fair value

The Company's valuation techniques and assumptions used for financial instruments not measured at fair value are as follows:

The Company's management considered that the disclosed carrying amounts of financial assets and liabilities measured at amortized cost approximated their fair values.

3) Valuation techniques for financial instruments measured at fair value

- a) Financial assets and liabilities with standard terms and conditions and traded in an active market, for example, investment in stock of listed companies and corporate bonds, the fair value is based on the market quoted price.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

- b) When a stock is not listed and there is no open offer in the active market, the fair value is estimated using the net worth per share method, the P/E method and the stock price ratio method.
 - c) The fair value of derivative instruments and structured deposit is based on quoted prices. When a public offer is not available, an evaluation approach is used to estimate that the estimates and assumptions used are based on the quoted information of financial institutions or on a binomial tree pricing model that is widely accepted by market users.
 - d) The fair value of other financial assets and financial liabilities other than the above is determined in accordance with the generally accepted pricing model based on discounted cash flows analysis.
- 4) There was no transfer between the different levels of fair value hierarchy for the years ended December 31, 2025 and 2024.

(s) Financial risk management

(i) Overview

The Company has exposures to the following risks from its financial instruments:

- 1) credit risk
- 2) liquidity risk
- 3) market risk

The following likewise discusses the Company's objectives, policies and processes for measuring and managing the above mentioned risks. For more disclosures about the quantitative effects of these risks' exposures, please refer to the respective notes in the accompanying parent company only financial statements.

(ii) Structure of risk management

The Company's financial risk management policies are established to identify and analyze the financial risks faced by the Company, to assess the impact of financial risk and implement policies related to mitigating financial risk. Financial risk management policies are reviewed regularly to reflect changes in market conditions and the Company's operations. The Company, through internal controls such as training, management standards, and operational procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations. The Company has no transactions in financial instruments (including derivative financial instruments) for the purpose of speculation. Internal auditors assist in the role of supervisory. Internal auditor undertakes both regular and ad hoc reviews of financial risk management controls and procedures, the results of which are reported to the board of directors.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

(iii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investments in debt securities.

1) Trade and other receivables

The Company established a credit policy to obtain the necessary collateral to mitigate risks arising from financial loss due to default risk. The Company will transact with corporations having credit ratings equivalent to investment grade, and such ratings are provided by independent rating agencies. Where it is not possible to obtain such information, the Company will assess the ratings based on other publicly available financial information and records of transactions with its major customers. The Company continuously monitors the exposure to credit risk and counterparty credit ratings, and establish sales limits based on credit rating for each of its approved customer. The credit limits for each counterparty are approved and reviewed annually by the finance department.

2) Investments

The exposure to credit risk for the bank deposits, fixed income investments, and other financial instruments is measured and monitored by the Company's finance department. The Company only deals with banks, other external parties, corporate organizations, government agencies and financial institutions with good credit rating. The Company does not expect any counterparty above fails to meet its obligations hence there is no significant credit risk arising from these counterparties.

3) Guarantees

The Company's policy is to provide financial guarantees only to wholly owned subsidiaries. Refer to note 13(a)(ii) for information about endorsements or guarantees provided by the Company as of December 31, 2025.

(iv) Liquidity risk

The Company manages sufficient cash and cash equivalents so as to cope with its operations and mitigate the effects of fluctuations in cash flows. The Company's management supervises the banking facilities and ensures compliance with the terms of loan agreements.

Loans and borrowings from the bank form an important source of liquidity for the Company. As of December 31, 2025 and 2024, the Company's unused credit line please refer to note 6(i).

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

(v) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, and equity prices, will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

1) Currency risk

The Company is exposed to currency risk on sales, purchases, and borrowings that are denominated in a currency other than the functional currencies of the Company, primarily the USD.

2) Interest rate risk

The Company borrows funds on fixed and variable interest rates, which has a risk exposure to cash flow.

3) Other market price risk

The Company resulted in an exposure to equity prices due to open funds and stock investments of listed companies whose fair value is measured through open quotations.

(t) Capital management

Through clear understanding and managing of significant changes in external environment, related industry characteristics, and corporate growth plan, the Company manages its capital structure to ensure it has sufficient financial resources to sustain proper liquidity, to invest in capital expenditures and research and development expenses, to repay debts and to distribute dividends in accordance to its plan. The management uses the appropriate total liability/equity ratio to determine the optimal capital for the merger. The management pursues the most suitable capital structure by monitoring and maintaining proper financial ratios as below. The Company aims to enhance the returns of its shareholders through achieving an optimized debt to equity ratio from time to time. The Company's liability to equity ratio at the end of each reporting period was as follows:

	December 31, 2025	December 31, 2024
Total liabilities	\$ 1,354,608	2,026,753
Total equity	9,871,236	9,693,079
Debt-to-equity ratio	14 %	21 %

As of December 31, 2025, the debt-to-equity ratio decreased mainly because the Company had sufficient cash on hand during the period, resulting in a reduction in borrowings.

Note1: Dongguan Jamicon Electronics Co., Ltd. was renamed as Dongguan Teapo Electronics Technology Co., Ltd. on December 25, 2024.

(b) Significant transactions with related parties

(i) Operating revenue

The amounts of significant sales by the Company to related parties were as follows:

	<u>2025</u>	<u>2024</u>
The subsidiaries of the entity with significant influence over the Company	33,438	48,866
Subsidiaries	<u>135</u>	<u>-</u>
	<u><u>\$ 33,573</u></u>	<u><u>48,866</u></u>

The price of goods the Company sold to the related parties was determined by negotiation between both parties and the terms of the receipt were processed on a monthly basis, without any significant difference from the third-party customers.

(Continued)

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

(ii) Purchases

The amounts of significant purchases by the Company from related parties were as follows:

	2025	2024
Subsidiary - JAMICON INTERNATIONAL LIMITED	\$ 667,349	703,713
Other subsidiaries	<u>20,232</u>	<u>9,076</u>
	<u>\$ 687,581</u>	<u>712,789</u>

The Company purchases goods from the related parties, if necessary, for its business operation, and there are no other transactions with non-related parties to compare. The payment term given to related parties is 90 days, and adjustments depend on demand for funds when necessary.

(iii) Receivables due from related parties

The receivables due from related parties were as follows:

Account	Relationship	December 31, 2025	December 31, 2024
Trade receivables	The subsidiaries of the entity with significant influence over the Company	\$ 7,044	9,961
Trade receivables	Subsidiaries	135	-
Other receivables	Subsidiary - JAMICON INTERNATIONAL LIMITED	6,748	3,577

KAIMEI ELECTRONIC CORP.
Notes to the Parent Company Only Financial Statements

The Company's compensation policy (for directors, executives, and employees) is as follows:

- (i) The remuneration of the directors (included independent directors) is determined based on their engagement and performance provided for the management of the Company. The compensation is reviewed by the Compensation Committee then submitted to the Board of Directors for approval.
- (ii) The compensation paid to the executive officers is evaluated and adjusted based on industry practice as well as their title, level, education, experiences, professional skills, job responsibility, and performance.
- (iii) Employee salary: Following the Company's starting salary and raise regulation, the Company also considers factors such as seniority and performance appraisal.
- (iv) Executive officers' and employees' bonus: The issuance of performance bonus is evaluated based on performance appraisal. The year-end bonus and employee compensation issued depending on the Company's operating condition as well as annual review of each employee.
